

CREATING A LOOPING DVD FOR INSTALLATION

The purpose of this document is to guide you in creating a properly formatted auto-looping DVD for use in a Gallery or Installation environment such as found in the Duderstadt Gallery or Studio.

DVD Template: This what it should look like when completed.

1. Choose the "Brushed Metal Two" theme.
2. In the top text field, type the name of the DVD, name of artist and the date. Turn "TV Safe Area" (Apple Key+T) and move the text field within the boundaries.
3. Add a second text field (Apple Key + K) and type, "This DVD autoplays and loops forever until you press "Menu" on the Remote."
4. Drag Full Quality DV QuickTime into iDVD application window. Type, "Hit "enter" or click here to play." In the menu item text field. Change text color to red.
5. Select movie menu item and select "Loop" from the "Advanced" iDVD pull-down menu at the top of the screen.
6. Preview and burn.
